

# Preliminary Roadmap

Nolimit loves building unique and innovative games. Mobile games are our focus, which is why all of our games are omni-channel releases built in HTML5 for desktop, tablet and mobile devices.

Our single game ID setup ensures identical player experiences and continuous play that lets you resume where you left off on any device, whenever you want. You can even continue your Free Spins on the bus if you're in a hurry!

See our game sheets for further details about our games; containing everything from promotional events to the detailed mathematical data behind the game.

Make note that this is our planned road map and may be a subject to change in regards of games and release date.

So that you can commit to fantastic promotions for our upcoming games, we will communicate a locked in release date and give you access to the game at least 30 days before the release date.
